

Anuj Tiwari

☎ 9892043555 || as4272079@gmail.com || <https://github.com/anuj321tiwari>

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML/CSS, SQL, GraphQL, Python
- **Libraries:** React.js, Redux Toolkit
- **Frameworks:** Next.js, React Native, Express.js, Tailwind CSS
- **Database:** MongoDB, MySQL
- **CMS/Platforms:** WordPress (Elementor frontend site building)
- **Developer Tools:** Git, Docker, Visual Studio Code

Experience

- **Junior Developer | [Rizvi College of Engineering]** June 2024 – Present
- Maintained and redesigned the organization's WordPress site using Elementor, improving UI/UX and content management.
 - Led the transition of the website from WordPress to a scalable and SEO-friendly solution by building it from scratch using React.js. Focused on improving website performance with fast loading times and enhanced SEO practices.
 - Developed APIs using serverless functions, integrating GitHub for efficient data management between the backend and frontend.
 - Developed a full-stack admission portal using Express.js, MySQL, React.js, and Passport.js for role-based login. Enabled students to submit applications and download PDFs; admins could manage applications, generate receipts, and export Excel reports.

PROJECTS

- **Real Estate Website**
- Developing a full-stack real estate website using Next.js, Express.js, and MongoDB. Integrated GraphQL for efficient data fetching, Cloudinary for image handling, and applied advanced SEO and performance optimizations (caching, compression, selective DB queries).
- **Crypto Exchange 3.0 | React.js, Tailwind CSS, Solidity, Node.js.**
- Developed a web-based Crypto Exchange application using React, Node.js, Solidity, Tailwind CSS.
 - Implemented features such as, Connect to Meta Mask Wallet, Realtime Secure Transaction, Transaction History with form details and Date and Time.
 - Hosted the Web-App on Vercel (crypto-anuj.vercel.app).
- **(Saas) Chat PDF Application | React.js, Tailwind CSS, Next.js, Prisma, PostgreSQL.**
- Developed a Chat PDF application using React, Next.js, Prisma, tRPC, Tailwind CSS and for Database PostgreSQL
 - Chat PDF allows you to talk to your PDF documents, it's perfect for quickly extracting information or answering questions from large PDF. Designed and implemented real-time Q&A features, User Authentication.
 - Hosted the Web-App on Vercel (saas-chatpdf.vercel.app).
